

WSA-PDVR

Portable Digital Video Recorder

This lightweight and compact DVR is full of great features, yet small enough to carry anywhere! Simply connect any external camera or other video source and this unit records your video footage using high-quality MPEG4 compression. Record to an SD memory card to obtain the optimum recording time for your application. Playback is simple and can be viewed on the built-in LCD screen or on a larger, external monitor. Additionally, the WSA-PDVR allows for motion activated recording!

- 2.4 inch LCD Monitor
- Records and plays back video using high-quality MPEG4 compression
- Includes USB cables for connection to external USB device or computer
- Built-in SD memory card drive
- Battery-operated for fully portable use
- Time/Date Stamp
- Resolution rate 720 x 480 pixels at 25-30fps
